Press Release

Christian Living Bible Institute announces new software for all new students.

Christian Living Bible Institute, (CLBI) announced today that they are now offering all seminary students the WordSearch 8 software upon enrollment.

Whitehouse Station, NJ, March 18, 2009: CLBI, the fastest growing seminary in the United States, has just completed an agreement with WORDsearch Corp of Austin Texas. "We are constantly looking for ways to keep the tuition low and at the same time help our students, learn the Bible," states Bob Paulson, Sr. Pastor of CLBI. CLBI is one of the fastest growing online seminaries and has the lowest tuition possible. "We provide a quality Bible education and we do what ever we can to keep the tuition low. We know our school is not for everyone, but for the student who has been called to preach and pastor, we offer a digital CD course that provides an extensive Bible education. We believe that someone who is called will be willing to do much of the studying on their own," stated Paulson. CLBI looks for ways to help students study without increasing the tuition. Tools like WORDSearch helps students study. "WORDsearch 8 is a powerful professional tool for pastors and we are honored to be used at the Christian Living Bible Institute," states Randy Beck, CEO of WORDsearch Corp. "We look forward to a long relationship with WORDsearch Corp," stated Paulson. Starting in April 2009 every student who enrolls in the CLBI seminary and pastor ordination program will receive the WORDsearch 8 program at no extra charge.
